

Section from the specification	Requirements	Response reference	Comments	Contributor	Section themes or strategies	Proof points or discriminators	Compliant?
Section one – overall purpose	Work with Children and Young People and parents/carers in co-designing and reviewing care pathways	Insert a relevant question number here	Insert any comments here, for example, an overlap with another question	Name of the people providing information for this answer	Our starting point is always to fully understand the needs of young people and their families – we don't expect them to fit in with what we want to provide	Over the past year we have redeveloped all of our care pathways, taking a co-production approach with young people. This has improved engagement by 50%, compliance with treatment by 40% and outcomes by 60%	In this column your reviewer would assess whether the answer was compliant with the requirements. You may like to put a scale in here, for example, Fully, Partially or Does not comply
Section two – service delivery	Ensure that children and young people's physical health and social needs are considered alongside their mental health needs.	Insert a relevant question number here	Insert any comments here, for example, an overlap with another question	Name of the people providing information for this answer	We take a holistic approach to assessment and treatment in line with good practice guidance (reference the specific guidance)	We have a bespoke holistic care planning process which has won an award for innovation and is focussed on considering the young person's whole spectrum of needs. Make sure you record the name of the award, when it was awarded and the reasons – which should link back to the requirement.	In this column your reviewer would assess whether the answer was compliant with the requirements. You may like to put a scale in here, for example, Fully, Partially or Does not comply
